Personal Information Manager (PIM) software lets you use your computer to manage the same information you store on your handheld. Using the synchronization software, you can synchronize your PIM data with your handheld.

- ☒ I want to use Palm Desktop (PIM software included)
- ☐ I want to use Microsoft Outlook.
- ☐ I want to use other PIM software (such as Lotus Notes or ACT!) - visit www.handspring.com for more info.

The CD includes synchronization software for Palm Desktop and Microsoft Outlook. To use another PIM, you need to install the synchronization software for that PIM after Setup finishes.

After you make a selection, click **Next** to continue.
